

MINING AND INDUSTRIAL

A world-class leading supplier of Heating Ventilation and Airconditioning (HVAC) and Industrial fans

We have a wide range of fans used for the Mining and Industrial Market. Our range of fans are specifically designed and used in various applications to meet requirements.

Minevent Fan

Minevent Fan

DUST COLLECTION APPLICATION

Fans used in conjunction with a dust collection system to collect fumes and dust in various applications.

CAS Fan

BCC Fan

BUILDING VENTILATION

Various fans can be used to ventilate factories, industrial building and workshops

UV Roof Fan

HV Fan

Majax-2 Fan

DRYING APPLICATIONS

We have a range of fans used for drying applications in the agricultural, food and automotive industry etc.

CMA Fan

Maxflo Fan

CMP Fan

EXPLOSION PROOF (Atex) APPLICATIONS

We have various fans used in Explosion Proof (Atex) areas such as battery rooms, spray booths, Silo and in the Petro-chemical industries.

C-Atex Fan

Maxflo Fan

HCDF Atex Fan

EXPLOSION PROOF (Atex) APPLICATIONS

We have various fans used in Explosion Proof (Atex) areas such as battery rooms, spray booths, Silo and in the Petro-chemical industries.

E-Atex Fan

Maxflo Explosion
Proof Fan

WELDING FUMES

We have various model of fans used for extracting welding fumes.

CMP Fan

CMA Fan

CORROSIVE APPLICATIONS

We have fans suitable for extracting highly corrosive gases constructed from polypropylene material.

CPV Fan

SIDE CHANNEL BLOWER

Our side channel blowers are used in various applications such as:

- Pond Aeration equipment
- CNC Machines
- Engraving Equipment
- Industrial vacuum systems
- Packaging
- Printing Presses
- Air knife systems
- WWPT/SEP wastewater treatment plants
